

X-79 Fotoguide for dækslayout

Af: Morten Lybech Thøgersen, DEN-234 & Finn Hoff, DEN-312

Introduktion

Hermed en lille fotoguide til inspiration for gamle og måske mest nye X-79 sejlere, der påtænker at lave nyt dækslayout. Fotoguiden er særdeles sparsom på tekst og kommentarer, og lader billederne tale for sig selv. Billederne er primært 'stjålet' ved DM i Fåborg 2000, DM i Hellerup 1997 og på bådudstilling i Fredericia ca. år 1996.

Den ikke fortløbende billednummerering henfører til fotografernes originalfotos. Kommentarer og evt. yderligere billeder modtages meget gerne på følgende email-adresse: morten_thoegersen@hotmail.com.
